

# Data Science Foundations to Core Career Track

## Craft a Story from a Dataset Rubric

Criteria	Meets Expectations
Completion	A Jupyter notebook or PowerPoint is submitted that communicates a data story for the project and data wrangling work completed to date.
Process and understanding	<p>The submission shows:</p> <ul style="list-style-type: none"><li>• that the student used effective questions and exploration of the data.</li><li>• that inferences, correlations, and/other relationships among the data were identified.</li><li>• that a hypothesis was developed.</li></ul>
Presentation	The project presentation demonstrates strong communication skills and presents insights using text and visuals.
